

AIR/GAS DISTRIBUTION EQUIPMENT

Nitrogen Generator

Why use expensive bottled gas when Perlick's nitrogen generator can produce enough nitrogen (when mixed with CO₂) to dispense up to six half barrels per hour. 20 gallon ASME certified tank.

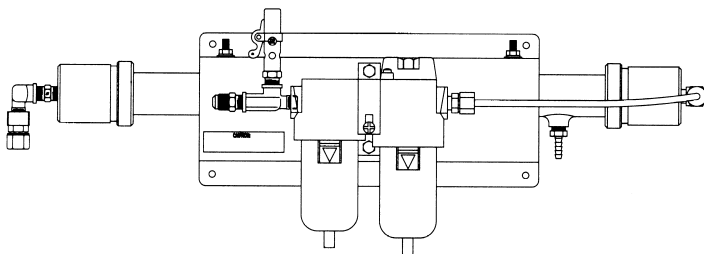

Part No.	Description
669N	Nitrogen generator

Air Compressor

Features an oilless compressor and in-line air dryer. Factory pressure set at 100 psig cut in and 120 psig cut out.

Part No.	Description
669HP	1/4 h.p. 12 gallon tank
671HP	3/4 h.p. 20 gallon tank

Nitrogen Retrofit Kit

An economical way to convert air compressor into a nitrogen generator. For use with a Perlick 1/4 h.p. air compressor only.

Part No.	Description
669N-RF	Nitrogen retrofit kit

Air Gauges
with 2" face 1/4" male pipe connection.

No. 2487R

Right-hand Thread

Part No.	Description
2487R	0-60 lb.
2488R	0-300 lb.
2489R	0-3000 lb.

Sidemount (0-3000 Lb.)

2489AR	Right-hand thread
2489ARLH	Left-hand thread

Sidemount (0-4000 Lb.)

2490R	Right-hand thread
2490RLH	Left-hand thread

Center Back Connection

C12303	0-30 lb.
C22228	0-60 lb.

Nitrogen/CO₂ Blender
Includes 20 feet of reinforced poly tubing

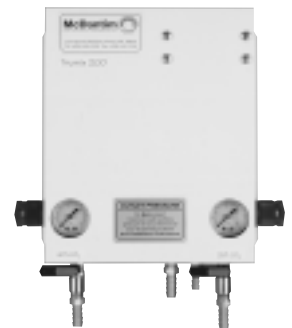

No. 664B

Part No.	Description
664B	Nitrogen/CO ₂ blender

McDANTIM'S TRUMIX CO₂-NITROGEN BLENDER

An extremely accurate Nitrogen CO₂ blender. Available in single or double blend unit preset at the factory. Provided with a 1/4" female pipe thread connection for use with any fitting required.

No. 668

Part No.	Description
665	Single blender- 60% N ₂ -40% CO ₂
667	Single blender- 75% N ₂ -25% CO ₂
668	Double blender- 75% N ₂ -25% CO ₂ 60% N ₂ -40% CO ₂
