**FOR IMMEDIATE RELEASE**

**Perlick Launches Expanded Glasswasher Line**

**Milwaukee, WI** – Perlick Corporation, the leading manufacturer of innovative total package bar and beverage systems, is proud to introduce three new glasswashers to its product line.

“With the addition of three new glass washers, we now have more depth to our product offering. This gives our customers four different styles of automatic glasswashers to choose from based on their individual needs”, says Tom Gutkowski, Sales Manager. “Whether you prefer an automatic carousel, a manually-operated carousel or a different door style, Perlick now has it all. In addition, we also offer a glasswasher that is Energy Star-rated in a time when energy consumption is a huge concern.”

Perlick's Automatic Carousel model PKC24 cleans and sanitizes up to 1,000 glasses per hour saving the bartender valuable time to tend to customers. This glasswasher includes a safe, convenient and hands-free activated on/off stop.

In addition, two undercounter door-style models, PKD24A and PKD24B, wash 30 racks of glassware per hour using only 1.7 gallons of water per cycle. All electrical components are attached to a sliding drawer for easy access and service. A built-in hot water assurance system guarantees hot water for every cycle (model PKD24A only).

These three new models, in addition to our PKBR24 Batch Rotary model, offer a variety of options all allowing users to save time, increase profits and get clean, sanitized glassware.
