

ATTENTION ALL OTHER MANUFACTURERS:

PERLICK WOULD LIKE  
TO CHALLENGE YOU TO A DUAL.

Perlick, your total package bar equipment, refrigeration equipment and beer system provider, introduces the new Dual Zone refrigeration unit. It comes with two separate, customizable compartments, so you can choose two different temperatures for two different personal needs. And, if that weren't enough, the Dual Zone can be customized even further with virtually any finish or paint color. We urge you to go to [perlick.com/dualzone](http://perlick.com/dualzone) to find out more, and we expect the competition to continue doing what it does best: just chill. Perlick. Always raising the bar.

## THE MODEL BSDZ60 CUSTOM DUAL ZONE BACK BAR: DOUBLE THE CAPABILITIES

Made exclusively by Perlick, our custom series two-door Dual Zone back bar sports the versatility to please both the beer lover and the wine connoisseur. The Dual Zone's temperature feature allows for the cabinet environment to be configured in three ways:

- Left compartment = beer at 38°; right compartment = white wine at 50° to 55°
- Left compartment = beer at 38°; right compartment = red wine at 60° to 65°
- Left compartment = white wine at 50° to 55°; right compartment = red wine at 60° to 65°
