**PERLICK EARNS EIGHT 2015 AWARDS FOR DESIGN EXCELLENCE (ADEX)**

MILWAUKEE – [Perlick](#), a leader in innovative, high quality undercounter refrigeration, today announced that the company has earned [eight 2015 Awards for Design Excellence \(ADEX\)](#) – the largest and most prestigious awards program honoring the design of appliances, furniture, fixtures and finishes marketed to the design trade. In addition to Perlick’s unmatched beer dispensing solutions – including the 650SS Flow Control Beer Faucet and stunning Adara Tower – receiving Platinum ADEX’s, each unit in the company’s new Signature Series Sottile collection of indoor and outdoor 18” deep undercounter refrigeration solutions also earned a 2015 ADEX.

“The 2014-2015 ADEX Awards attracted upwards of 500 companies submitting thousands of innovative new products,” said John Platter, executive director of ADEX. “ADEX judges are among the design industry’s most respected in their respective areas of expertise. The ADEX Award represents the best product and project designs of the year in the opinion of those who matter the most, and Perlick’s unprecedented eight awards is a testament to their dedication to innovation.”

Perlick’s new, Signature Series Sottile collection includes indoor and UL rated outdoor, 18” deep undercounter refrigerators, beverage centers and wine reserves. In addition to a powerful – yet energy efficient – Best in Class compressor, the new Sottile collection is also ADA compliant for accessible design, and its unique 18” depth provides greater design flexibility than standard 24” deep models - without sacrificing storage capacity.

“As the industry’s first line of undercounter refrigeration to feature a slim 18” profile, Perlick’s new Sottile collection was created to provide designers with unique space-saving refrigeration options when specifying their clients’ indoor and outdoor kitchens and entertaining areas,” states Vice President of Marketing and Business Development at Perlick, Tim Ebner. “We are honored that the design community has acknowledged our dedication to innovation by awarding all of our newest products, and accessories, with ADEX recognitions.”

All of the entries in each of the ADEX categories have potential for three award levels of Platinum, Gold or Silver. Judges awarded points based on form, function, value, and fitness for particular purpose. Total points earned determined each winner’s award level. All Platinum, Gold and Silver level products will be published in the 2015 ADEX Winners Edition and will be featured all year on [designjournalmag.com](http://designjournalmag.com).
