**PERLICK NAMED “BEST IN CLASS” BY FOODSERVICE EQUIPMENT & SUPPLIES MAGAZINE
FOR THE TENTH CONSECUTIVE YEAR**

MILWAUKEE – [Perlick](#), a leader in total package bar equipment and beverage dispensing systems, today announced that its [Top Shelf line of Stainless Steel Underbar equipment](#) has earned Foodservice Equipment & Supplies’ (FE&S) title of **Best in Class** in all four categories: [Overall](#), Dealers, Operators, and Consultants. This is the tenth consecutive year that Perlick has received the esteemed recognition. Perlick’s innovative underbar equipment earned the renowned title of Best in Class by garnering positive evaluations from foodservice and equipment representatives across the industry.

“For nearly a century Perlick has been manufacturing unmatched bar and beverage equipment that continuously sets new industry standards,” says Jim Koelbl, Vice President of Sales and Marketing at Perlick. “Earning the Best in Class recognition for the tenth consecutive year – from those who are most familiar with our products – is a testament to both the innovation displayed by Perlick’s Top Shelf line of Stainless Steel Underbar equipment as well as Perlick’s dedication to providing our customers with quality products that increase efficiency and profitability.”

To determine which companies and products are awarded the title of Best in Class, FE&S’s subscribing foodservice operators, dealers and consultants evaluate equipment and supplies manufacturers on seven characteristics: product quality, product value, product design and aesthetics, service and support, sales representation, product inventory and availability, and product information availability. [Perlick’s Top Shelf line of Stainless Steel Underbar equipment](#) earned impressive evaluations for every characteristic in each category.

The Top Shelf line of Stainless Steel Underbar equipment includes innovative product solutions of the highest quality and craftsmanship, allowing customers to create an underbar package that is unique, affordable and manufactured to within an inch of the available space. Numerous design solutions, including standard bar modules in 6" increments, inside and outside corner fillers that allow change of direction in five degree increments, custom cocktail stations, and multi-tank sink modules in one inch increments, ensure that Perlick’s final underbar design is efficient and profit-generating.

Perlick’s Top Shelf line of Stainless Steel Underbar equipment includes:

- Modular, preassembled or freestanding stainless steel underbar pieces made to fit any bar design
- Glass storage, glasswashers and drainboards
- Ice chests and insulated storage chests
- Pass-thru stations
- Corner fillers and filler chases
- Liquor displays
- Blender stations/shelves, ice cream cabinets
- Equipment stands
- Pre-configured cocktail stations
- Multi-tank sinks, hand sinks and bridge and trash units
- Glass handling and chemical storage

(Continued)

Perlick’s Top Shelf line of Stainless Steel underbar equipment installed at the Bradley Center in Milwaukee, Wis., includes pre-configured cocktail stations, drainboards, specialty sinks, corner filler sections, service stations and liquor displays.
