

PERLICK NITRO DISPENSING KIT

FEATURES AND BENEFITS

- Take your beverage to the next level by infusing it with nitrogen for a lasting **cascading effect** and a **smooth, creamy, slightly sweet flavor**
- Beverages such as coffee, tea, beer, and others can be infused using the *Perlick Nitro Dispensing Kit* – **elevate your beverage offering and increase profits** by charging more for higher end beverages
- Dual infuser kit gives you the capability to **dispense two nitrogen infused beverages** at the same PSI for a wider appeal to customers
- Kit allows connection to a tower with **up to 4 faucets** allowing you to dispense more beverages to meet your customers' needs
- Pair with Perlick's superior refrigeration for a **durable and reliable** dispensing system you can trust
- Quick disconnects **minimizes labor** and makes it easy to change out kegs
