Perforated insert

TSCE12DB

TSCE24DB

KEY PRODUCT FEATURES AND BENEFITS

- 'Honeycomb' shaped perforated inserts, at a durable 18-gauge stainless steel, enable great air flow for efficient glassware drying, maximize glass storage, and are designed to hold up to a high-volume abuse.
- 'Bullnose' front apron top ledge for bartender comfort and a premium aesthetic across the Tobin Ellis Signature Series line.
- Drainboard tops are pitched to the drain, so water is evacuated quickly and effectively. With the matching insert, the drainboard surface remains level for storing glassware.
- Our new, more robust Perlick Quick Clamp leg attachment still features easy tool-less installation, when legs are used.

Additional Features:

- Drainboards are extra deep at 27-9/16"D for staging more glassware.
- Perforations were designed and engineered to provide safe-handling and maximum strength.
- 18-gauge steel inserts won't waffle or bend.
- Insert size designed for easy cleaning.
