

AIR-COOLED WALL MOUNTED SHANK ASSEMBLY KITS

Dispensing Beer through the Cooler Wall

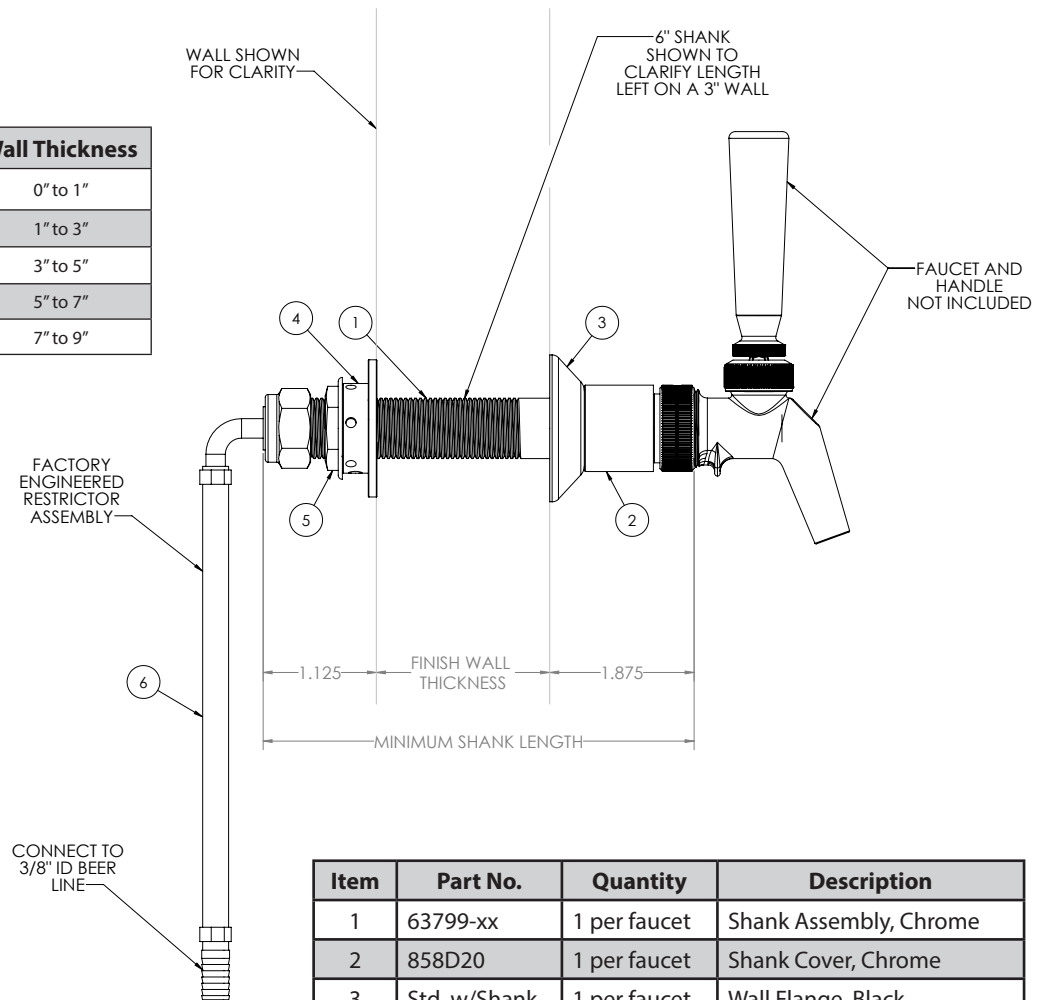

Perlick cooler tapping kits contain all of the components needed to install air-cooled, through-the-wall beverage dispensing. Select a kit based on the cooler wall thickness and the number of faucets needed.

- Faucets and shanks chilled by Walk-in-cooler.
- For tapping most domestic and import beers using straight CO₂.
- Faucets not included.
